The original manufacturer datasheet follows from the next page.

Eaton's Bussmann® series fuses
Full line catalogue

BUSSMANN
SERIES

Leadership in fusible circuit protection solutions

Powering Business Worldwide

We make what matters work.*

At Eaton, we believe that power is a fundamental part of just about everything people do. That's why we're dedicated to helping our customers find new ways to manage electrical, hydraulic and mechanical power more efficiently, safely and sustainably. To improve people's lives, the communities where we live and work, and the planet our future generations depend upon. Because this is what really matters. And we're here to make sure it works.

To learn more go to: Eaton.com/whatmatters

Powering Business Worldwide

We make what matters work.

Eaton is the leading source of fusible circuit protection solutions in the global marketplace. Eaton's Bussmann® series products are approved for use around the world and meet agency requirements and international standards: IEC, VDE, DIN, UL, CSA, BS and others.

The headquarters for Eaton's Bussmann® series product line is located in Burton-on-the-Wolds, Leicestershire (UK) and is part of Eaton's Industrial Control and Protection EMEA division.

Eaton manufactures over 50,000 Bussmann® series part numbers, covering extensive fusible circuit protection solutions for a wide range of applications: residential, industrial, motor protection, power conversion and distribution.

Eaton has been a leading exponent in the design, development and manufacture of fuse links and their associated accessories for more than 100 years and has supplied fuse links to more than 90 countries worldwide.

Eaton's team of specialist Engineers and Field Applications Engineers plays a leading role in international standardisation of fuse links offering comprehensive advice on selection and applications.

With a continual commitment to meet our customers' needs with innovative high quality products with ISO 9001 'approval systems', Eaton is the supplier of choice for circuit protection solutions.

Terms and conditions

Essential information

- Eaton's standard terms and conditions apply www.eaton.eu/termsconditions
- For small order value refer to the terms and conditions
- All products are listed by product type
- Order cancellation or postponements are not permitted

Purchase information

- Purchase orders must contain agreed price per item
- Purchase orders are only accepted by fax or email
- Fax: 00 44 (0) 1509 882 786
- Email: GBBURSales@eaton.com

Your account number is

Delivery options

- Express delivery services available, contact our customer services department for details: 00 44 (0) 1509 882 600

Product information

- Pack quantities are subject to change without notice
- All dimensions quoted are in millimetres (mm) unless otherwise stated

Return of goods under warranty

When requesting the return of goods, customers should note the following:

- Requests should be made to Eaton customer service team 00 44 (0) 1509 882 600; giving the reason for the requested return, together with the appropriate despatch / invoice number. If accepted, a 'Returns Number' will be allocated.
- The returned goods must be marked with an authorised 'Returns Number' on both the carton(s) and any accompanying paperwork, otherwise Eaton reserves the right to refuse the delivery and return the goods at the sender's expense.
- Authorisation for the return of goods does not guarantee that credit will be issued for these goods.

Contact details

Customer satisfaction team

Eaton's Customer Satisfaction team is available to answer questions regarding Bussmann series products.

Calls can be made between:

Monday - Friday 7.30 a.m. - 5.00 p.m.

The Customer Satisfaction team can be reached via:

Phone: 00 44 (0) 1509 882 600

Fax: 00 44 (0) 1509 882 786

Emails:

For orders and sales enquiries: GBBURSales@eaton.com

For forecasting information: buleforecasting@eaton.com

For payment advice: EES-paymentadvice@eaton.com

Application engineering

Application engineering assistance is available to all customers. The Application Engineering team is available to answer your technical and application queries.

Calls can be made between:

Monday - Thursday 8.30 a.m. - 4.30 p.m. GMT

Friday 8.30 a.m. - 4.00 p.m. GMT

Application Engineering can be reached via:

Phone: 00 44 (0) 1509 882 699

Fax: 00 44 (0) 1509 882 794

General technical enquiries:
buletechnical@eaton.com

For enquiries related to high speed fuse links:
bulehighspeedtechnical@eaton.com

This catalog is intended to clearly present comprehensive product data and provide technical information that will help the end user with design applications. Eaton reserves the right, without notice, to change design or construction of any products or discontinue or limit distribution of any products. Eaton also reserves the right to change or update, without notice, any technical information contained in this price list. Once a product has been selected, it should be tested by the user in all possible applications. The information contained in this price list is correct at the time of publication, but we reserve the right to supply products differing in construction or performance.

CCP2 Compact Circuit Protector

Compact Circuit Protector (CCP2) - Disconnect switches overview

Catalogue number explanation

Product family	Operation side	Switch fitted on	Number of poles	Rated current	Type
CCP2	(no letter) Switch only	(no letter) = switch fitted on the right	1, 2 or 3	30, 60, 100, 200 A	CF = Class CF Disconnect switches
	R = FRont rotary operation	L = switch fitted on the Left		30 A	CC = Disconnect switch for use with class CC fuse links
	S = Side rotary operation				

Example CCP2RL-2-30CF is a CCP2 disconnect switch, class CF with front left rotary operation, 2-pole, 30 A

CCP2 (switch only)

CCP2R (fRont righT operation)

CCP2RL (fRont LefT operation)

CCP2S (Side righT operation)

CCP2SL (Side LefT operation)

North American fuse links and fuse holders

Compact Circuit Protector (CCP2) - Class CF Disconnect switches

Accessories - Control wire terminals

Catalogue number	Description	Pack qty	MOQ
CCP2-CWK2	1/4" quick connect control wire terminals - mounts on installed lug (cannot be used with lug CCP2-L2-1)	12	12

Accessories - Handle extension

Catalogue number	Description	Pack qty	MOQ
CCP2-HEX	Handle extension to facilitate operating 1-, 2- and 3--pole switches. Cannot be used when side or front rotary mechanisms or flange handle rod or cable operators are installed.	1	1

Accessories - Auxiliary contacts

Catalogue number	Description	CCP2 rated current	Suitable for CCP2	Pack qty	MOQ
CCP2-AUX	NO + NC 5 A / 240 V a.c. mounts on right side	30 & 60 A	CCP2-(pole)-CF, CCP2SL-(pole)-CF, CCP2RL-(pole)-CF	1	1
CCP2-AUX-100	NO + NC 5 A / 240 V a.c. mounts on right side cannot be used with flange rod handle	100 A	CCP2-(pole)-100CF, CCP2RL-(pole)-100CF, CCP2SL-(pole)-100CF	1	1
CCP2-AUX-S	NO + NC 5 A / 240 V a.c. can be mounted on the right or left	200 A	CCP2-(pole)-200CF	1	1

CCP2-AUX cannot be mounted on the right front and right side rotary operated CCP2. Therefore cannot connect to CCP2R (front right rotary operation switch) or CCP2S (Side right rotary operation switch)

Electric Vehicles

As the automotive world is becoming ever more electrified the power requirements are changing, so have the electrical circuit protection needs. Eaton is continually developing fuse designs to meet these ever changing requirements. The experience of Eaton in protecting semiconductor devices has proven invaluable as vehicle powertrain systems have moved to power based converters for the variable speed motor drives, auxiliary power conversion and charging circuits.

Utilising a global network of engineering, manufacture and distribution, Eaton is able to draw upon a wealth of knowledge to fully meet your application needs and ensure you can rely on the best in class electrical circuit protection solutions.

Electric Vehicles	
Standards	Most commonly ISO 8820-8, Jaso D622 amongst others
Voltage	Options up and above 1000 V d.c., please contact Eaton's Bussmann series Application engineers to discuss your specific requirements bulehighspeedtechnical@eaton.com
Current	Options up to 1250 A, please contact Eaton's Bussmann series Application engineers to discuss your specific requirements bulehighspeedtechnical@eaton.com
Operating class	aR & gR
Breaking capacity	Up to 150 kA
Applications	Batteries, converters, inverters, charging circuits and auxiliary circuits

Eaton is an intelligent power management company dedicated to improving the quality of life and protecting the environment for people everywhere. We are guided by our commitment to do business right, to operate sustainably and to help our customers manage power - today and well into the future. By capitalizing on the global growth trends of electrification and digitalization, we're accelerating the planet's transition to renewable energy, helping to solve the world's most urgent power management challenges, and doing what's best for our stakeholders and all of society.

Founded in 1911, Eaton has been listed on the NYSE for nearly a century. We reported revenues of \$19.6 billion in 2021 and serve customers in more than 170 countries.
