Electronic Components Sourcing Information

---

## Product Reference Information

**Part Number:** GBPC2506W  
**Manufacturer:** onsemi  
**Package:** 4-Square, GBPC-W  
**Availability:** Please confirm with sales

**Product Page:**

<https://antrexco.com/product/details/onsemi/gbpc2506w.html>

WhatsApp: +86-186-8066-5326

Website: <https://antrexco.com>

## Quality & Trust

New & Original Components

Supplier verification and packaging condition review

CoC / RoHS / REACH documents available on request

Secure sourcing support for OEM / EMS projects

**Note:**

This PDF includes an ANTREX product reference cover page.

The original manufacturer datasheet follows from the next page.

# Bridge Rectifiers (Glass Passivated)

## GBPC 12, 15, 25, 35 SERIES

### Features

- Integrally Molded Heat-Sink Provided Very Low Thermal Resistance for Maximum Heat Dissipation
- Surge Overload Ratings from 300 A to 400 A
- Isolated Voltage from Case to Lead over 2500 V
- UL Certified, UL #E258596
- Terminals Finish Material
  - ◆ Silver (Solderable per MIL-STD-202, Method 208 for the wire type GBPC-W package)
  - ◆ Nickel for GBPC package
- Mounting Torque: 20 in-lbs Maximum
- These are Pb-Free Devices

### Suffix "W"

- Wire Lead Structure

GBPC  
CASE 160AD

GBPC-W  
CASE 160AD

### PIN ASSIGNMENT

GBPC

GBPC-W

### ORDERING INFORMATION

See detailed ordering and shipping information on page 4 of this data sheet.

NOTE: Some of the devices on this data sheet have been **DISCONTINUED**. Please refer to the table on page 5.

# GBPC 12, 15, 25, 35 SERIES

## SPECIFICATIONS

### ABSOLUTE MAXIMUM RATINGS ( $T_A = 25^\circ\text{C}$ , unless otherwise specified.) (Note 1)

| Symbol             | Parameter                                                  |                | Value       |     |     |     |     |     |      | Unit |
|--------------------|------------------------------------------------------------|----------------|-------------|-----|-----|-----|-----|-----|------|------|
|                    |                                                            |                | 005         | 01  | 02  | 04  | 06  | 08  | 10   |      |
| V <sub>RRM</sub>   | Maximum Repetitive Reverse Voltage                         |                | 50          | 100 | 200 | 400 | 600 | 800 | 1000 | V    |
| V <sub>RMS</sub>   | Maximum RMS Bridge Input Voltage                           |                | 35          | 70  | 140 | 280 | 420 | 560 | 700  | V    |

| I <sub>F(AV)</sub> | Average Rectified Forward Current at T <sub>C</sub> = 55°C | GBPC12         | 12          |     |     |     |     |     |      | A    |
|                    |                                                            | GBPC15         | 15          |     |     |     |     |     |      |      |
|                    |                                                            | GBPC25         | 25          |     |     |     |     |     |      |      |
|                    |                                                            | GBPC35         | 35          |     |     |     |     |     |      |      |
| I <sub>FSM</sub>   | Non–Repetitive Peak Forward Surge Current                  | GBPC12, 15, 25 | 300         |     |     |     |     |     |      | A    |
|                    | 8.3 ms Single Half–Sine–Wave                               | GBPC35         | 400         |     |     |     |     |     |      | A    |
| T <sub>STG</sub>   | Storage Temperature Range                                  |                | –55 to +150 |     |     |     |     |     |      | °C   |
| T <sub>J</sub>     | Operating Junction Temperature                             |                | –55 to +150 |     |     |     |     |     |      | °C   |

Stresses exceeding those listed in the Maximum Ratings table may damage the device. If any of these limits are exceeded, device functionality should not be assumed, damage may occur and reliability may be affected.

1. These ratings are limiting values above which the serviceability of any semiconductor device may be impaired.

### THERMAL CHARACTERISTICS ( $T_A = 25^\circ\text{C}$ , unless otherwise specified.)

| Symbol          | Parameter                                     | Value | Unit               |
|-----------------|-----------------------------------------------|-------|--------------------|
| $P_D$           | Power Dissipation                             | 83.3  | W                  |
| $R_{\theta JC}$ | Thermal Resistance, Junction to Case (Note 2) | 1.5   | $^\circ\text{C/W}$ |

2. With Heatsink.

### ELECTRICAL CHARACTERISTICS ( $T_A = 25^\circ\text{C}$ , unless otherwise specified.)

| Symbol | Parameter                                               | Test Conditions           |        | Value     | Unit                   |
|--------|---------------------------------------------------------|---------------------------|--------|-----------|------------------------|
| $V_F$  | Forward Voltage Drop, per bridge                        | 6.0 A                     | GBPC12 | 1.1 (Max) | V                      |
|        |                                                         | 7.5 A                     | GBPC15 |           |                        |
|        |                                                         | 12.5 A                    | GBPC25 |           |                        |
|        |                                                         | 17.5 A                    | GBPC35 |           |                        |
| $I_R$  | Reverse Current, per element at Rated $V_R$             | $T_A = 25^\circ\text{C}$  |        | 5.0 (Max) | $\mu\text{A}$          |
|        |                                                         | $T_A = 125^\circ\text{C}$ |        | 500 (Max) | $\mu\text{A}$          |
| $I^2t$ | Rating for Fusing $t < 8.35$ ms                         | GBPC12, 15, 25            |        | 375       | $\text{A}^2\text{Sec}$ |
|        |                                                         | GBPC35                    |        | 660       | $\text{A}^2\text{Sec}$ |
| $C_T$  | Total Capacitance, per leg $V_R = 4.0$ V, $f = 1.0$ MHz | GBPC12, 15, 25            |        | 180       | pF                     |
|        |                                                         | GBPC35                    |        | 200       | pF                     |

Product parametric performance is indicated in the Electrical Characteristics for the listed test conditions, unless otherwise noted. Product performance may not be indicated by the Electrical Characteristics if operated under different conditions.

**onsemi** and **onsemi** are trademarks of Semiconductor Components Industries, LLC dba **onsemi** or its subsidiaries in the United States and/or other countries. **onsemi** reserves the right to make changes without further notice to any products herein. **onsemi** makes no warranty, representation or guarantee regarding the suitability of its products for any particular purpose, nor does **onsemi** assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation special, consequential or incidental damages. **onsemi** does not convey any license under its patent rights nor the rights of others.

**onsemi**, **Onsemi**, and other names, marks, and brands are registered and/or common law trademarks of Semiconductor Components Industries, LLC dba "**onsemi**" or its affiliates and/or subsidiaries in the United States and/or other countries. **onsemi** owns the rights to a number of patents, trademarks, copyrights, trade secrets, and other intellectual property. A listing of **onsemi**'s product/patent coverage may be accessed at [www.onsemi.com/site/pdf/Patent-Marking.pdf](http://www.onsemi.com/site/pdf/Patent-Marking.pdf). **onsemi** reserves the right to make changes at any time to any products or information herein, without notice. The information herein is provided "as-is" and **onsemi** makes no warranty, representation or guarantee regarding the accuracy of the information, product features, availability, functionality, or suitability of its products for any particular purpose, nor does **onsemi** assume any liability arising out of the application or use of any product or circuit, and specifically disclaims any and all liability, including without limitation special, consequential or incidental damages. Buyer is responsible for its products and applications using **onsemi** products, including compliance with all laws, regulations and safety requirements or standards, regardless of any support or applications information provided by **onsemi**. "Typical" parameters which may be provided in **onsemi** data sheets and/or specifications can and do vary in different applications and actual performance may vary over time. All operating parameters, including "Typicals" must be validated for each customer application by customer's technical experts. **onsemi** does not convey any license under any of its intellectual property rights nor the rights of others. **onsemi** products are not designed, intended, or authorized for use as a critical component in life support systems or any FDA Class 3 medical devices or medical devices with a same or similar classification in a foreign jurisdiction or any devices intended for implantation in the human body. Should Buyer purchase or use **onsemi** products for any such unintended or unauthorized application, Buyer shall indemnify and hold **onsemi** and its officers, employees, subsidiaries, affiliates, and distributors harmless against all claims, costs, damages, and expenses, and reasonable attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized use, even if such claim alleges that **onsemi** was negligent regarding the design or manufacture of the part. **onsemi** is an Equal Opportunity/Affirmative Action Employer. This literature is subject to all applicable copyright laws and is not for resale in any manner.
